

# Science That Sells

Backed by multiple peer-reviewed studies

Proven in both laboratory and commercial farm conditions

Evidence-based performance gives your sales team confidence

## Easy to Position, Easy to Use

Simple inclusion in regular feed (0.2–0.7%)

Suitable for both fish and shrimp production systems

Supports farmer profitability through better survival and growth in challenging conditions

Adds a premium, science-backed solution to your product range

*AuraAqua helps you offer more than a product, it helps you offer performance.*

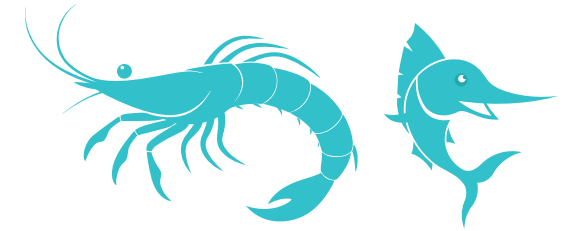

# READY TO MAKE

the shift to sustainable aquaculture?

## Call to Action

Partner with us to bring natural, proven aquaculture health solutions to your market.

SUSTAINING HEALTH NATURALLY

## A Growing Market Need

Fish and shrimp producers worldwide are under pressure to:

Manage increasing disease challenges

Improve survival and feed efficiency

Maintain profitability under tighter margins

Strengthen stock resilience in intensive systems

*Distributors who offer effective, natural performance solutions are positioned to win long-term customer trust.*

**AuraAqua meets this demand with proven, science-based performance.**

## What is AuraAqua?

AuraAqua is a natural functional feed ingredient developed to improve health, resilience, and growth performance in both fish and shrimp.

It integrates easily into standard feed programs and delivers measurable results at farm level, making it a strong, value-adding product for your aquaculture portfolio.

Improved Survival & Farm Productivity

Enhanced Growth Performance under challenging conditions

Powerful Protection Against Diseases

Stronger Immunity, Lower Stress

## Functional Benefits at the Biological Level

AuraAqua works through multiple complementary mechanisms:

Modulates immune response to help reduce inflammation

Supports natural antioxidant defense systems

Promotes beneficial gut bacteria such as Lactobacillus spp.

Protective mechanism results in improved gut integrity and digestion

*This multi-action approach delivers consistent performance across varied farming conditions and species.*

## Naturally Effective

100% natural formulation

Safe and sustainable

Aligns with global sustainability
